Global Youth Village
International Summer Leadership Program
for Young Adults ages 15-19

• Make Global Friendships • Develop Leadership and Dialogue Skills •
• Work with experts in the fields of peace and conflict, human rights, and climate action
The Global Youth Village was formed over 40 years ago, with a need and a dream. As the world became increasingly globalized, a group of parents noticed their children did not have the opportunity to meet other young people from different countries and cultures – something they knew their children needed in order to succeed in this new “global world.” These parents dreamed of a way to bring young people from diverse countries together to play, learn, and live alongside one another. Having trouble finding a program which offered just this, they decided to start their own. During the particularly hot summer of 1979, these parents worked diligently with a community of like-minded volunteers, building what is now called the Global Youth Village. That summer, GYV hosted just 12 young people. Over the following four decades, with the support of dedicated alumni and numerous national and international organizations, GYV has brought together over 5,000 youth from 117 different countries.

Over the years, GYV has partnered with the U.S. Department of State and local U.S. community-based organizations to bring diverse groups of youths together. From 2006-2014, GYV hosted over 350 teens from Iraq and 250 teens from Indonesia. Since 2016, U.S. Embassies in Egypt, Algeria, and the U.K. have sent over 100 teens. Our dynamic LivingSideBySide® and leadership curriculums are the bedrock of the experience.

We are dedicated to developing young leaders who are guided by their core values and equipped with the skills needed to contribute positively in their communities.
